California Department of Mental Health \$503,468

*Prevention and Early Intervention Needs Assessment for California's Underserved Communities*

This contract was intended to develop a process for community engagement in historically underserved and isolated communities to encourage ongoing, meaningful input and participation in the planning and implementation of early intervention and prevention initiatives, more specifically, for California counties looking to access the resources derived from the Mental Health Services Act (formerly Proposition 63). Role: PI.

NIH/NIMH \$282,250

*Spanish Adaptation of the BASIS Mental Health Survey*

The goal was to develop a culturally and linguistically appropriate measure of consumer self-reported clinical and functional mental health status for a Spanish-speaking Latino population of mental health service consumers that is designed to assess outcome of treatment. We will

accomplish this by adapting, translating into Spanish, and pilot testing the revised Behavior and Symptom Identification Scale (BASIS-R). Role: Co-Investigator.

**20001968 (Aguilar-Gaxiola) 2/15/2001 – 2/14/2005**  
 The California Endowment \$985,969  
*Increasing Access to Culturally and Linguistically Appropriate Mental Health Services for Low-Income, Underserved, Rural Populations*  
 The purpose of this program was to create a multi-collaborative network of community-based organizations, consumer advocates, community educators and applied scientists that will promote the health and we-being of the low income, underserved, rural Latino populations in the Central Valley. The major goal was to increase access to care by addressing modifiable barriers. Role: PI.

**5-T34-MH63193-03 (Aguilar-Gaxiola) 7/1/2001 – 6/30/2005**  
 NIH/NIMH \$1,016,554  
*Minority-COR Honors Training Program (M-COR)*  
 The goal of the M-COR Program was to promote an increase in the number of minority undergraduate students into doctoral programs to pursue careers in mental health related research. Role: PI.

**1-R24 MH063292-01 (Aguilar-Gaxiola) 7/1/2002 – 6/30/2005**  
 NIH/NIMH \$1,302,221  
*Minority Research Infrastructure Support program (M-RISP)*  
 The overall goal of this M-RISP program was to advance research to reduce disparities in minority mental health. This program was comprised of two components: (1) the creation of a research infrastructure that facilitates the development and utilization of high quality mental health interventions for ethnic minorities, and (2) two individual faculty research projects: Cultural Adaptation and Testing of Mental Health Measures in Mexican-Americans and Barriers and Predictors of Mental Health Service Utilization among Severely Mentally Ill Mexican Americans. Role: PI.

**1 RO1 MH62209-01 (Alegria) 11/1/2001 – 8/31/2002**  
 NIH/NIMH  
*National Latino and Asian American Study (NLAAS)* \$36,000  
 The main goal of the study was to examine the prevalence and associated risk and protective factors for mental and substance abuse disorders among Latinos and Asian American populations. Role: PI Partner Site.

**1 PO M59876-01 (Alegria) 08/1/2001 - 7/31/2002**  
 NIH/NIMH  
*Latino Research Program Project (LRPP)* \$75,000  
 Testing and Adaptation of Outcome Measures for Latinos  
 The major goals of this project were to (a) adapt or develop and (b) test the reliability and validity of assessment instruments for measuring the treatment effectiveness of mental health services for Latino populations. Role: PI Partner Site.

9/99 – 5/00

Principal Contractor: Was awarded a contract with Fresno County for planning, developing, implementing, and evaluating a new cultural competent model of mental health service delivery to the Latino population of Fresno County. Amount: \$54,367.

- 12/98 – 4/99 Principal Investigator: Was awarded a grant (P.O. No. 263-MD-821149) by the National Institute of Mental Health (NIMH) to conduct a pilot study to test the diagnostic concordance of three Spanish translation versions of the World Health Organization's CIDI 2.1 (i.e., CIDI-AUTO, I-SHELL, and Paper-and-Pencil versions). Amount: \$8,140.
- 7/98 – 6/00 Co-Principal Investigator: Collaborated with the project's P.I. Ricardo F. Muñoz, Ph.D. from the Department of Psychiatry, San Francisco General Hospital, UCSF on a UC MEXUS funded grant on "Reliability of the Spanish/English WHO CIDI in a Clinical Population." Amount: \$10,000.
- 6/98 – 7/99 Principal Investigator: World Health Organization, Division of Mental Health & Prevention of Substance Abuse, sub-contract to translate the HANES-IShell WHO CIDI CAPI version into Spanish. Amount: \$ 8,000.
- 2/98 – 3/99 Principal Investigator: World Health Organization Training and Reference Center (WHOTRC): A CSUF - UCSF Joint Partnership. Funded by the CSU System for UC Collaborations. Amount: \$ 12,010.
- 9/97 - 3/98 Principal Investigator: National Institutes of Health (NIH), grant to translate the CIDI 2.1 Computerized version into Spanish. P.O. No. 263-MD-730934. Amount: \$ 7,500.
- 5/96 – 6/99 Co-Principal Investigator: Collaborated with the project's P.I. Ronald C. Kessler, Ph.D. from the Department of Health Care Policy, Harvard Medical School on a National Institute of Drug Abuse (NIDA), five-year funded grant on "International Research on Drug Abuse Epidemiology." Grant No. 1 R01 DA11121-01. The Project's total direct costs were \$ 2,704,000. CSUF's three-year sub-contract agreement was for \$186,228.
- 9/93 – 7/98 On-site Principal Investigator and Project Director: Collaborated with the project's P.I. William A. Vega, Ph.D. from the School of Public Health, University of California, Berkeley on a National Institute of Mental Health (NIMH), funded grant on "Mental Health Service Utilization Among Rural Mexican Americans." Grant No. 1 R01 MH51192-01. Amount: \$2,141,654 (direct costs).
- 7/89 - 12/91 Co-Principal Investigator: Collaborated with Ricardo F. Muñoz, Ph.D. and John A. Starkweather, Ph.D., from the University of California, San Francisco in the project "Prevention of Depression in Migrant Workers." Project funded by a UC MEXUS grant. Amount: \$4,000.
- 11/88 - 8/93 Principal Investigator: Developed a PC-based Spanish-language computerized clinical interview that assists in the diagnoses of DSM-III-R's Mood Disorders based on a Spanish version of the Mood Disorders section of the Structured Clinical Interview for DSM-III-R (SCID). This computerized interview used expert system technology. Data was collected on low-income, low-

- education, urban and rural Hispanic clinical populations who received mental health services from Fresno and Kings Counties.
- 2/88 - 5/92 Principal Investigator: Conducted a major survey to determine the attitudes of last year high school students toward the career of psychology. Data was collected on a probability, stratified sample of 1903 students. Data collection was done throughout the State of Jalisco (Mexico). Data was also collected on a sample of 771 college students from California State University, Fresno.
- 1986 - 1987 Project Coordinator: Coordinator of a research project funded by an UCSF's intramural Biomedical Research Support Grant. This project was designed to study the effects of cognitive-behavioral therapy on the metabolic control of diabetic depressed medical patients.
- 1985 - 1986 Ph. D. Dissertation Research: "Direct and Moderating Effects of Personal and Environmental Resources in Different Types of the Stressor-Distress Relationships." Thesis Advisor: Robert Newbrough, Ph.D., George Peabody College of Vanderbilt University, Nashville, TN.
- 12/82 - 8/84 Research Assistant: Diabetes Research and Training Program of Vanderbilt University School of Medicine. Nashville, TN. Research Advisor: Raymond Norris, Ph.D., George Peabody College of Vanderbilt University, Nashville, TN.
- 1982-1983 M. S. Thesis Research: "The Role of Mentors in the Lives of Psychology Graduate Students." Thesis Advisor: Raymond Norris, Ph.D., George Peabody College of Vanderbilt University, Nashville, TN.
