ADMINISTRATION

The University of Vermont—Dean of The College of Arts and Sciences (since 2012)

Chartered in 1791, the same year that Vermont became the 14th state, The University of Vermont (UVM) was established as the fifth college in New England (after Harvard, Yale, Dartmouth and Brown). Although it began as a private university, UVM attained quasi-public status with the passage of the Morrill Land-Grant College Act in 1862 and the addition of the State Agricultural College. Today, the university blends the traditions of both a private and public university. UVM combines faculty-student relationships most commonly found in a small liberal arts college with the resources of a major research institution. The university is home to 10,459 undergraduates, 1,540 graduate students, 449 medical students and 1,471 faculty. UVM is organized into seven undergraduate schools and colleges, offering 101 bachelor's programs, and four pre-professional options. The Graduate College offers 54 master and 24 doctoral programs, and an M.D. program through the College of Medicine. UVM is fully accredited by the New England Association of Schools and Colleges ([NEASC](#)).

The College of Arts and Sciences (CAS) at UVM provides students with a sound liberal education through close interaction with nationally and internationally noted scholars. CAS is home to 21 departments, with well over 6,000 students, and about 300 faculty and 100 staff. The College offers three undergraduate degrees (B.Mus., B.S. and B.A.), with 48 majors in the Fine Arts, Humanities, Natural Sciences, and Social Sciences. CAS offers doctoral programs in psychology and the natural sciences, a number of master programs in the humanities, and intercollege doctoral programs in Cell and Molecular Biology, Material science, and Neuroscience.

Texas A&M University—Dean of Faculties and Associate Provost Office (2006-2012)

Texas A&M University became Texas' first public institution of higher learning in 1876. What started as the Agricultural and Mechanical College of Texas for six male students is now home to a campus with 39,000-plus undergraduates and about 10,000 graduate and professional degree students. Texas A&M has two branch campuses (Galveston-Texas, and Doha-Qatar) and three centers abroad (Italy, Mexico, and Costa Rica). College Station alone is home to 10 colleges and 66 departments. About 2,800 faculty guide the reins of this research-intensive flagship university that prides itself for providing an excellent education and rich student life. Its faculty and students engage in learning and discovery in a wide range of academic and professional fields represented by more than 250 different degree offerings.

When I left the post of Dean of Faculties and Associate Provost (<http://dof.tamu.edu>), the office was organized into seven separate offices, the *Dean of Faculties*, the *Center for Teaching Excellence*, *International Faculty and Scholar Services*, *Intercollege Interdisciplinary Degree Programs*, the *Faculty Senate*, *Callaloo*—the premier Journal of the African Diaspora Arts and Letters, and the *Academy for the Visual and Performing Arts*. In all, 34 full time employees and 15 to 20 undergraduate and graduate student workers made up the Dean of Faculties and affiliated offices. Direct reports included three Associate Deans, an Assistant Dean, and two Directors (with the exception of the assistant dean, all others had faculty appointments in academic departments).

TEACHING

September 1994 - present:

Undergraduate Courses:
