Agency: NIH/NIAAA

Title: "Preventing Alcohol and Other Drug Use and Violence among Latino Youth"

The social costs of adolescent substance use and violence are staggering. At present, however, our ability to effectively prevent substance use and violence among Latino youth is limited. The overall objectives of this study are to adapt a school-based, SAMSHA model substance use intervention to include a focus on violence prevention. This includes research and training in the areas of qualitative research, intervention adaptation, and prevention implementation and outcomes research.

Total direct cost: \$742,300 (9/1/2018-8/31/2023)

Role: Principal Investigator

Integrated Pilot Grant Program

Agency: NIH/NCATS (via UL1 TR001430)

Title: "Developing an Online AOD Training Program for Health Professions Educators"

Our long-term goal is to develop an online training program that can greatly increase the reach of our AOD train-the-educator efforts. The objectives of this pilot study are to: [1] adapt modules from our current training programs for an online format and [2] pilot test these online modules with physician and social work faculty. Preliminary data will inform feasibility and proof of concept, and inform a full adaptation and outcomes test with physician and social work faculty.

Total direct cost: \$15,000 (09/01/2018-08/30/2019)

Role: Principal Investigator

Early Stage Pilot Grants for Drug Abuse Research

Agency: NIH/NIDA (via R25 DA030310)

Title: "Addressing Health Behavior Problems in School-Aged Venezuelan Immigrant Youth"

The objective of the proposed study is twofold: First, we seek to gather preliminary data on recently-arrived Venezuelan adolescents regarding: drug/alcohol use and health risk behavior, well-being, and social context. Second, drawing from the findings from our survey, we will provide youth with a

telephone-based brief intervention and norm-based feedback focused on alcohol, tobacco, cannabis, and prescription drug misuse and other health-risk outcomes.

Total Direct Costs: \$15,000; Period: 06/01/2018-12/31/2018

Role: Principal Investigator

R25 DA030310 (PI: J. Anthony)

Agency: NIH/NIDA

Title: "Early Stage Mentoring for NIDA Research Program"

This mentoring program aims to expand and enhance research training opportunities for early-stage faculty investigators. This program complements the Interdisciplinary Research Training Institute (IRTI) on Hispanic Drug Abuse and provides mentoring for early career scientists already employed as faculty or research staff members of institutions that will sponsor their grant applications. Opportunities exist to develop grant applications and career development proposals, and support for pilot research and travel to scientific meetings.

Period: 07/01/2014-12/31//2018

Role: Research Fellow

Institute for Advanced Study of the Americas Research Group Grants (PI: S. Schwartz)

Agency: University of Miami

Title: "Storms and Migration: Stress, Mental Health, Service Needs, and Intervention Needs among Puerto Ricans Following Hurricane Maria"

The proposed pilot project is intended to provide feasibility data for a larger longitudinal study of Puerto Rican youth and their families following Hurricane Maria. Specifically, we aim to demonstrate that we can partner with Puerto Rican community leaders in Florida and in Puerto Rico to recruit post-Maria Puerto Rican families, and that scores on our survey instruments will be internally consistent.

Total direct costs: \$7500; Period: 01/10/2018-01/15/2019

Role: Co-Investigator

PENDING RESEARCH SUPPORT

R01 Research Project Grant

Agency: NIH/NIAAA (R01 AA027469)

Title: "Post-Maria Puerto Rican Families Relocated to Florida: A Multisite Study of Alcohol Misuse and Mental Health Problems "

Our long-term goal is to assist Puerto Rican families in the aftermath of Hurricane Maria. A major part of this goal is identifying intervention strategies to prevent or offset alcohol misuse among adults and youth who went through the storm. We focus our efforts on alcohol misuse based on findings from our epidemiologic research indicating disconcerting levels of alcohol use among island-born Puerto Ricans prior to the storm and increases in alcohol misuse in response to trauma and migration-related stressors.

Thriving Communities Grants

Agency: The National Academies of Sciences, Engineering, and Medicine | Gulf Research Program

Title: "Methods for improving resilience for disaster migrants in the Gulf Region: The case of Puerto Ricans in Florida following Hurricane Maria"

As climate change accelerates and sea levels rise, there will likely be more major disasters that will send migrants to other locations throughout the US Gulf region. To address this growing crisis, we propose to develop and disseminate innovative and user-friendly guidelines that recovery stakeholders can use to strengthen resilience for disaster out-migrants and the communities where they settle.

Direct costs requested: ~\$3,000,000

Role: Co-Principal Investigator

Submission Date: September 19, 2018 (Letter of Inquiry, Encouraged to Submit)

Submission Date: December 5, 2018 (Full Proposal)

Status: The application is pending review.

R01 Research Project Grant

Agency: NIH/NICHD (R01 HD098774 / R01 HD094572)

Title: "Migration-Related Stress among Venezuelan Immigrant Youth in the US and Colombia"

The proposed study is oriented around two interrelated objectives. The first objective relates is to establish an evidence base on the migration-related experiences of Venezuelan immigrant youth and their families that can inform the generation of validated, culturally-tailored interventions. The second objective is to test the scope of cultural stress theory by comparing migration-related stress and youth outcomes among Venezuelan migrants to the US versus those in neighboring Colombia.

Status: This application will be resubmitted in March, 2019.

R01 Research Project Grant (PI: J. Delva)

Agency: NIH/NIDA (R01 DA045841)

Title: "Prospective Study of Cannabis Use Effects on Neurocognitive & Functional Outcomes"

The proposed study will evaluate the long-term neurocognitive and behavioral consequences of marijuana use using a Chilean prospective sample followed from infancy through age 27 to assess predictors of cannabis use in adolescence and young adulthood.

Total direct cost: TBD (~\$2,500,000)

Role: Co-Investigator

R01 DA045841-01: Submission Date: June, 1, 2017 (Impact Score = 38, Percentile = 35)

Note: C.P. Salas-Wright not involved in first submission.

Status: This application will be submitted as new proposal in June, 2019.

COMPLETED RESEARCH SUPPORT

KL2 TR001411

Agency: National Center for Advancing Translational Sciences (NIH)

Title: "Developing Collaborative Research Partnerships in Greater Boston"

With the support of the Boston University Clinical & Translational Science Institute, the objective of this KL2 Mentored Career Development Award is to support promising junior faculty translational researchers. The current project focuses on establishing collaborative research partnerships with Latino-focused youth organizations in Greater Boston with the long-term aim of developing a prevention program for substance use and violence among Latino adolescents.

Total direct costs: \$247,442 (9/1/2017-3/31/2019*) and \$83,500 (4/1/2017-8/30/2017);

Role: Principal Investigator

Submitted: February 10, 2017

* Dr. Salas-Wright relinquished KL2 Scholar Award upon receipt of K01 AA026645.

Puerto Rico Recovery Project

Agency: RAND Corporation: Homeland Security Operational Analysis Center

Title: Puerto Rican Migrants in Florida in the Aftermath of Hurricane Maria

Conduct survey and focus group interviews with Puerto Ricans displaced to Orlando and Miami, Florida by Hurricane Maria. The aim of this project is to collect data that can inform the efforts of the RAND Corporation—in conjunction with the Federal Emergency Management Agency—in the initial and ongoing recovery plan for Puerto Ricans impacted by the Category 4 hurricane.

Total Costs: \$61,000; Period: 3/30/2018-5/15/2018

Role: Principal Investigator

R25 AA021714

Agency: NIH/NIAAA

Title: "The Alcohol and Other Drugs Education Program (ADEP) for Social Work Faculty"

The long-term objective of the Alcohol Education program (ADEP) for Social Work Faculty is to promote the use of empirically-supported alcohol and other drugs (AOD) identification and treatment methods among social workers. This is in keeping with the NIAAA goal to promote the use of research to treat and prevent AOD abuse and dependence.

Total Costs: \$242,072; Period: 1/15/2017-1/2/2018

Role: Principal Investigator (1/2017-8/2017) / Consultant (9/2017-1/2018)

National Register Based Longitudinal Study

Agency: Umea University, Sweden

Title: "Examining the Effectiveness of Addiction Treatment Intervention"

Drawing from national register data, this study responds to the Swedish government's call for improved quality, knowledge and competence in substance use disorders (SUD) and SUD treatment through research and results dissemination. Dr. Salas-Wright served as principal investigator during the project's no cost extension between August and September, 2017.

Total direct costs: \$379,883; Period: 8/22/2017-9/30/2017

Role: Principal Investigator

Mental Health Research Grants

Agency: Hogg Foundation for Mental Health

Title: "Substance Use Prevention for Student Veterans Experiencing Psychological Distress"

The goal of this study is to adapt and pretest a preventative substance use intervention with college student veterans experiencing psychological distress at UT Austin.

Total direct costs: \$19,250; Period: 6/1/14-9/2/15
Role: Principal Investigator
Submitted: January 6, 2014

Pilot Research Grants

Agency: St. David's Center for Health Promotion & Disease Prevention Research
Title: "Examining Hispanic Adolescent Alcohol Use and Health-Risk Behavior: The Feasibility of a Biobehavioral Approach"

The goal of this study is to examine the feasibility of biobehavioral research with Hispanic adolescents recruited from a clinical setting. Additionally, we will pilot test use of biomarkers, including: resting heart rate (biomarker for low reactivity), 2:4 digit scan (biomarker for prenatal testosterone exposure), and hair samples (examining cortisol, testosterone, and exposure to heavy metals).

Total direct costs: \$25,000; Period: 1/1/14-09/01/15
Role: Principal Investigator
Submitted: October 14, 2014

R25 DA026401 (PI: A. Valdez)

Agency: NIH / NIDA

Title: "Interdisciplinary Research Training Institute on Hispanic Drug Abuse"

The Interdisciplinary Research Training Institute (IRTI) on Hispanic Drug Abuse promotes the career development of pre-doctoral, postdoctoral and early career clinically-focused scientists interested in conducting research as it affects the Hispanic population. The grant provided mentorship and training to early career scientists in the domains of publications, presentations, and federal funding for research.

Agency: NIH / NIDA

Title: "Substance Abuse Intervention Outcome Research Training"

This training program addresses the significant and costly public health problem of substance abuse by training postdoctoral biomedical, biobehavioral, health care, and other public health scientists to conduct substance abuse intervention research. The training program draws on many scientific disciplines, including biological sciences, epidemiology, etiology, prevention, clinical, and public health research, and emphasizes multidisciplinary approaches to achieving innovations in substance abuse research.

Period: 8/1/12-6/1/13

Role: Postdoctoral Research Fellow

EARA/SRA Summer School (PI: S. Russell)

Agency: Johan Jacobs Foundation

Title: Society for Research on Adolescence Summer Training Program

This training program provided intensive methodological and substantive instruction in research with adolescent populations. Program fellows receive funding for travel, food, and lodging as well as extensive mentorship from senior researchers in the field of developmental psychology.
